JUSTIFICATION: The Alaska Board of Fisheries authorized the department to use its emergency order authority to increase sport bag and possession limits and modify annual limits for hatchery king salmon in terminal harvest areas when escapement is expected to be in excess of the broodstock requirements. King salmon in excess of broodstock requirements are expected to return to the Deer Mountain Hatchery, Whitman Lake Hatchery, Neets Bay Hatchery and Carroll Inlet remote release site. Therefore, the Department is providing opportunity for anglers to target hatchery king salmon in the saltwater terminal areas adjacent to these locations. The terminal harvest area regulations provided for under the Herring Bay Management Plan are being implemented more conservatively to protect wild king salmon stocks transiting the Ketchikan area.

PREVIOUS EMERGENCY ORDERS AFFECTED: Emergency Order 1-KS-R-05-19 established resident and nonresident king salmon bag and possession limits and a nonresident king salmon annual limit as per the Southeast Alaska King Salmon Management plan based on the 2019 winter troll catch per unit effort.

Emergency Order 1-KS-R-03-19 establishes areas and times when king salmon may not be retained in the vicinity of Haines, Skagway, Juneau, Petersburg, Wrangell and Ketchikan; these actions are being taken to reduce the harvest of Southeast Alaska wild king salmon stocks and meet objectives for king salmon management within the Pacific Salmon Treaty and are not affected by this emergency order.

DISTRIBUTION:

The distribution list for this emergency order is on file at the Region 1 Office of the Alaska Department of Fish and Game, Division of Sport Fish, P. O. Box 110024, Douglas, AK 99811, (907) 747-5551.
